1985 Article Index

Systems Management Principles

Need for the systems generalist (Jan)
John Callahan

The need for business analysts (Feb)
Leonard E. Mann

Legal theories on programmer liability (June)
Stephen A. Moscove

Systems revolution (July)
Wendell Sayer

What makes a manager unique? (Aug)
Richard R. Riker

The beginnings of modern management: Alexander and Darius (Sept)
Randall R. Kline, CSP

Managing stress effectively (Sept)
Dr. Brian Kleiner and Steven Geil

Managing the Systems Effort

Decomposition of system verification diagrams (Jan)
Dr. Raghubir N. Mathur

Getting the big project off the ground (Jan)
Jo Ann Johndrow

The rural analyst (Feb)
Stephen A. Dimino, CSP

The information payload (Feb)
Fenwicke W. Holmes, CSP

Employee participation eases the transition to office automation (Feb)
Timothy A. Matherly and Donna M. Matherly

Microabacus implementation: A user-driven approach (Feb)
Steven F. Farkas, CSP

Role of a clear procedure in a critical situation (Mar)
Leslie H. Matthies

Auditors, who needs them? (Mar)
David M. Lathrop, CSP

User involvement: What kind, how much and when? (Mar)
John M. Nicholas

Human information processing limitations and the systems manager (Mar)
William J. Corney

A common language for analyzing work (Apr)
Dr. Michael D. Shinnick and Donald L. Gerber, CSP

Productivity improvement: Making work fun (Apr)
William J. Boczany

Video display terminal controversy (May)
Richard K. Aeh, CSP

A cost-effective internal control system — Management's dilemma (May)
Dr. Ted R. Compton, CSP

Does automation necessarily mean an increase in productivity? (May)
Ralph L. Kleim

Interfaces and implementation of an automated project management network planning system (May)
Mark D. Matthews

Planning for IRM (June)
Betty J. Friedlander, CSP

Better interviewing skills (June)
Dr. Charles R. Litecky

Computer assisted strategic planning in small businesses (July)
Fred R. David

There is a difference (July)
Stephen A. Dimino, CSP and Christine M. Nygren

The trained-user as a systems analyst (July)
Richard Chen

Practical DP controls for the small business (Aug)
Mary V. Campbell and M. Margaret Cermak

Data security packages — How safe are they? (Aug)
Lawrence R. Ness

Comparative analysis of word processing packages (Sept)
Dr. D. G. Dologite and Dr. D. M. Levine

Instant analyst — Consulting (Oct)
Dr. Merle P. Martin

Automation, job design and productivity of high volume office operations (Oct)
Dr. G. H. Manoochehri

Software project management and cost control (Oct)
Dr. M. K. Raja, CSP

Becoming competitive with value engineering/value analysis (Oct)
Dr. Vincent G. Reuter

Office productivity factors (Nov)
Kenneth M. Drange

Organization and management of the information center (Nov)
Dr. Mary Sumner

The professional office and how to make it work (Dec)
L. Don Holland

EDP controls in an integrated application development environment (Dec)
J. Howard Baker and Dr. Lawrence L. Schkade

Selection and Training of Systems Personnel

Integrating personal computers into organizations: Problems, benefits and training issues (Mar)
Dr. Louis E. Raho and Dr. James A. Belohlav

U.S./Canadian personnel cost comparisons (Mar)

Productivity improvement: Making work fun (Apr)
William J. Boczany

Cyclical curriculum review — A systems approach (May)
Alexander M. Gottesman

Temporary workers tackle office automation (June)
Peter Margarita

Better interviewing skills (June)
Dr. Charles R. Litecky

The trained-user as a systems analyst (July)
Richard Chen

Personnel policies may threaten DP operations (Dec)
Timothy A. Matherly and Lee P. Stepina

Information Collection, Storage, Retrieval

Buying forms (Mar)
Leslie H. Matthies and Gibbs Myers

Protecting corporate data (Apr)
Belden Menkus, CSP

Forms design in the fast lane (Apr)
Gibbs Myers and Joseph M. Cherico

Forms for invoicing (July)
Leslie H. Matthies and Gibbs Myers

Serial numbers on forms (Aug)
Gibbs Myers and Leslie H. Matthies
Outside furnished forms (Sept)
Leslie H. Matthies and Gibbs Myers
Checking proofs and dummies (Nov)
Leslie H. Matthies and Gibbs Myers
A fiasco in the records center (Dec)
Gibbs Myers and Wayne Ferguson

DP Hardware and Software Applications

Technical software development tools (Jan)
Csaba J. Egyhazy
Tracking communication patterns during DP growth (Jan)
Richard Discenza and Carol Stoak Saunders
Managing the micro invasion (Jan)
Dr. Earl Chrysler
Information resource center: A new force in end-user computing (Feb)
Robert V. Head, CSP
Purchasing's role in EDP acquisitions (Feb)
Dr. Larry C. Guinipero, Fred K. Augustine Jr. and Robert A. Henderson
Present stage of personal computing — Challenges and concerns (Mar)
Barry Nirmal and Jean Nutter
Incorporating the PC into the workplace (Apr)
Dr. Philip K. Y. Young and Elizabeth M. Carey
Tax impact of buying a microcomputer (May)
Dr. Patrick B. Dorr
Video display terminal controversy (May)
Richard K. Aeh, CSP
Legal theories on programmer liability (June)
Stephen A. Moscove
The promise of artificial intelligence (July)
Dr. Stephen J. Andriole
Computer assisted strategic planning in small businesses (July)
Fred R. David
Five of the fifth (Aug)
J. E. Downs
Identifying and minimizing the risks in software selection (Aug)
Barry Shore
Software development dilemma: A case of perceptual bias (Aug)
J. Wayne Spence
Pick package like a mate (Sept)
Robin F. Goldsmith J.D.
PC revolution — Crossroads or deadend? (Sept)
Dr. C. C. M. Campbell
Micro maintenance — What are the options? (Nov)
Steven F. Farkas, CSP
Evaluation and selection of a DBMS for academic use (Nov)
Dr. Sitansu S. Mittra
COBOL application generators (Dec)
Dr. Lee L. Gremillion and Timothy Shea
What the DP auditor does (Dec)
Belden Menkus, CSP

Management Science

Techniques and issues in rapid prototyping (June)
Teresa Steinbock Harrison
The promise of artificial intelligence (July)
Dr. Stephen J. Andriole
Prototyping: Not a method but a philosophy (Sept)
Dr. Peter G. Kauber
Prototyping and the systems development life cycle (Aug)
Ralph Harrison, CSP
Remainder method of allocating variable quantities (Oct)
Al Holtsberry, CSP
Maximizing return on your most limited resource (Dec)
Al Holtsberry, CSP

Management Information Systems

Information resource center: A new force in end-user computing (Feb)
Robert V. Head, CSP
Information systems: Does efficiency mean better performance? (Apr)
Kenneth M. Drange
Protecting corporate data (Apr)
Belden Menkus, CSP
Changing role of management information systems and office automation (May)
Tom Falce
Interfaces and implementation of an automated project management network planning system (May)
Mark D. Matthews
Beware of the cost/benefit model for IS project evaluation (June)
Peter M. Q. Lay
A strategy for a successful MIS/DIS implementation (Aug)
Dr. Jugoslav S. Multinovich and Dr. Vladimir Vlahovich
MIS in perspective (Oct)
Dr. Earl M. Wysong, CSP
MIS leadership in transition (Nov)
Dr. Mehdi Khosrowpour, CSP
Information architecture (Nov)
Richard A. Spencer, CSP
Organization and management of the information center (Nov)
Dr. Mary Sumner

Graphic Presentations & Reports

Data-driven report writing (Apr)
Alfred B. Hurd
Graphics in business information systems (July)
K. Venkata Rao
Selling systems ideas (Nov)
Paul R. Saunders, CSP

Case Histories

Improving productivity with the just-in-time system (Jan)
G. H. Manoochehri
Evaluation and selection of a DBMS for academic use (Nov)
Dr. Sitansu S. Mittra

Looking Back

The case of the analyst with a friend in high places (Jan)
The case of the mysterious visitor (Feb)
The case of the international wine expert (Mar)
The case of the grateful analysts (Apr)
The case of "You can't get there from here" (May)
The case of the mystery password (June)
The case of the reluctant job seeker (July)
The case of the breached security precaution (Aug)
The case of my fellow americans (Sept)
The case of the disappearing workload (Oct)
The case of the problem that wasn't solved (Nov)
The case of the non-supportive boss (Dec)
